

## Lesson Plan

**Dimension:** Numbers

**Topic:** Fractions (5N6)

**Class:** Primary 5

**Time:** 30 minutes

**Previous Knowledge:**

1. Students were able to understand the concepts of division.

**Learning Objectives:**

Knowledge in Key Learning Areas –

- Students are able to understand the concept of division of fractions (grouping).

Generic Skills –

- Communication Skills, Self-learning Skills, Information Technology Skills.

Values & Attitudes –

- Students are able to cooperate with peers and evaluate others' work.

Time Flow	Content	Remarks
Arouse learning interest (5 minutes)	<p><u>Motivation</u></p> <p>Scenario – You are helping Mr Au to prepare the materials for a cooking lesson.</p> <p>Inform the Ss about the lesson objective today: to help Mr Au distribute different materials into small portions. The questions are designed to help students <b>focus</b> on division of fractions as a grouping approach.</p> <p>E.g.</p> <ul style="list-style-type: none"><li>•2 kg of sugar being divided into bags of <math>\frac{1}{5}</math> kg</li><li>•3 kg of baking powder being divided into bags of <math>\frac{1}{3}</math> kg</li><li>•<math>5\frac{1}{2}</math> kg of flour being divided into bags of <math>\frac{1}{2}</math> kg</li></ul>	Daily life example  Questioning
